Director, Office of Legislative Liaison 4 February 1985

NOTE TO: DDA

o In his 30 January remarks to the SSCI, Senator Durenberger, noted the following:

"Fritz Hollings told me he is deeply concerned about the hardships and dangers our men and women are facing and the growing disincentives for the best people to go into intelligence work. This is a serious problem and I look to Fritz to get the Committee involved in that area."

o Follow-up with Senator Hollings ought to be initiated. How about discussing a scenario with the DD's and Ex Dir?
